

INTERNSHIP

greatlakes equine^{LLC}
enhancing health & performance

Great Lakes Equine is an exclusively equine veterinary clinic providing routine and emergency care for approximately 2,000 horses within a 150 mile radius. An 11,000 square foot clinic and hospital with surgical suite provide an exceptional atmosphere for more advance procedures and overnight medical cases. We are a progressive practice offering dentistry, sport horse medicine, lameness and performance evaluations, high-quality internal medicine, reproductive services, wellness care, and alternative medicine.

At GLE, our internship program allows you to learn one-on-one from our experienced doctors and technicians, get hands-on practical experience with our teaching horses, and eventually, practice on your own with mentors dedicated to your continuing education.

Our program includes:

Wet labs, including:

- Ultrasound
- Radiography
- Lameness, including examination and blocks
- Podiatry, including hoof testing, angles and trimming
- Ophthalmology
- Alternative medicine basics
- Anesthesia
- Clinical anatomy
- Laboratory, in-house, routine blood work, fecal analysis
- Catheter placement
- Bandaging
- Reproduction
- Gastrosocopy / endoscopy
- Pharmacology review, including sedatives, antibiotics, steroids, feed supplements

Practical experience, including:

- Dentistry
- Routine immunizations
- Bandaging
- Physical exams
- Colic workup and management
- Lameness exams
- Ophthalmology
- Radiography
- Regenerative medicine
- Euthanasia, when necessary
- Laceration repair
- Dystocia and other reproductive emergencies

Business topics, such as:

- Practice ownership basics
- Pharmacy and inventory
- How to secure an equine position
- Practice ethics

After the first 6 months, intern will accept primary case responsibility for routine daytime appointments, as well as, after-hour emergencies. Intern is provided use of their own ambulatory vehicle.

About our clinic:

Great Lakes Equine, located in the heart of the Fox Cities in Hortonville, Wisconsin, offers:

- 11,000 square foot clinic and hospital
- 6 doctor practice
- 10 large hospitalization stalls
- Foaling stall
- Technician monitoring station
- Video camera monitoring
- Surgical suite
- Two 18' x 20' examination rooms
- 48' x 48' lameness arena
- Fully equipped laboratory
- 4 outdoor paddocks

Our goal is to assist new veterinary graduates to become excellent equine practitioners.

If you are interested in an organized, comprehensive internship with practical client interaction, attentive mentoring, case presentations, weekly doctor meetings, state-of-the-art equipment and much more, Great Lakes Equine is the internship for you.

Interested in applying for an internship position? Apply online or email your resume to info@glequine.com

About our externship:

Great Lakes Equine offers 2-week externships for 4th year students.

- Hands-on learning
- Participation in labs
- Partake in patient care
- After hours emergencies

Our goal is to provide all externs with a positive experience and an open learning environment. Our externs are then encouraged to apply for our internship.

Interested in scheduling a 2-week externship? Apply at glequine.com or email info@glequine.com.

“I learned so much from all the GLE doctors and support staff. I feel like I have come a long way in a year—though I have a lifetime of learning ahead of me.”
